From the time he abruptly entered my life 7 years ago, it was clear that I was much more his person than he was ever to be my dog. Taylor was mercury quick in mind, body and spirit, always demanding "Keep UP!" He accomodated my competitive aspirations to a point but clearly didn't want me to get too carried away with myself: he had far more important things to occupy himself with than worrying about perfect scores. He left this earth with his spirit undiminished and his wonderful light burned bright until the end. He is deeply missed.

Loved forever by Joanne Klauer, Calgary, AB.
